

## Online Safety

Whilst we are working at remotely from home, many of our families will be accessing online learning and the internet far more. Many of you will, like us, be juggling home schooling and working from home yourselves. During this time your children may be going on line with less supervision than normal. We urge you to continue to monitor your child's online usage. With this in mind, here are some useful links to some online safety home learning packs. There is one for 4-5 year olds, 5-7 year olds and 8-10 year olds.

These resources are endorsed by the national crime agency and will be updated weekly with short 15 minute activities and topics to discuss.
